

EventComponent

```
classDiagram
    class EventComponent
    class EventLeaf
    class FoodVendor
    EventLeaf --|> EventComponent
    FoodVendor --|> EventLeaf
```

The diagram illustrates a class hierarchy. At the top is the 'EventComponent' class. Below it is the 'EventLeaf' class, which inherits from 'EventComponent' as indicated by a vertical arrow pointing upwards. At the bottom is the 'FoodVendor' class, which inherits from 'EventLeaf' as indicated by another vertical arrow pointing upwards.

EventLeaf

FoodVendor
